Technical Data

Capacity	64 oz.
Control Type	Digital Touchpad
Drinks per Day	75 or More
Features	BPA Free NSF Listed Timer
Horsepower	3 1/2 hp
Jar Type	Tritan™
Plug Type	NEMA 5-15P
Product Line	AvaMix BX
RPM	26000 RPM
Speeds	3 Speed
Type	Blenders
Usage	Bar Blending Food and Drink Blending

Notes & Details

The AvaMix BX2100E commercial blender with touchpad controls and adjustable speed combines raw power and maximum versatility in a blender that is equally at home in a juice or smoothie bar, or churning out mixed drinks at a pub or restaurant! Its 3 1/2 hp motor boasts a whopping 26,000 RPM and 1800W, making it one of the most powerful blenders available in its class - and with a metal drive coupling and blade assembly, it is more than capable of handling ice crushing, drink mixing, smoothies, house-made spreads or salsa, and anything else you can throw at it.

And even with touchpad controls, operation is simple and easy to learn. It features three speed settings ranging from 15,000 to 26,000 RPM, and the timer can be set in increments of 30 seconds up to 15 minutes. You can blend two ways, using either a time and a speed setting, or if you prefer to blend by sight simply choose a speed and let your blender work until you've reached the desired consistency. And if you will be making the same recipe repeatedly, this blender makes it easy with a one-touch start feature that repeats the most recent time and speed settings with a single press of the "Start" button. When you need a quick burst of power to finish off a recipe or clear the blade area, it also has a convenient pulse button to throttle the unit on "High" speed.

The 64 oz. BPA-free Eastman Tritan™ jar design provides maximum durability while allowing this model to handle large volume blending. A 2-piece lid lets you add ingredients to the blender at any stage in the mixing process - simply remove the clear center lid and use the included tamper to push the add-ins down into the jar. A sleek and sturdy ABS plastic base looks great on any bar counter while also making it easy to clean. For added convenience the jar pad is dishwasher safe, but the jar should be washed by hand for maximum product life. This blender requires a 120V electrical connection.
