Number of Discs	6 Discs
Plug Type	NEMA 5-15P
Power Type	Electric
RPM	1750 RPM
Speeds	1 Speed
Type	Continuous Feed Processors

Notes & Details

Streamline your prep work with this AvaMix Revolution Max dice food processor! Boasting an efficient 1 1/2 hp motor and 1,100W of power, this robust unit packs the requisite power to handle large quantities of soft and firm fruits and vegetables. The built-in dicing function helps you achieve consistent cuts every time. This unit comes with a continuous feed attachment to further increase prep speed, as well as 5/32", 3/8", and 1/8" slicing discs, 5/64" and 1/8" grating discs, and a 3/8" dicing grid for added versatility. The unit's heavy-duty construction with nonskid feet ensures it will hold up to the demands of commercial kitchen operations. It's also compact in size for use in establishments that have limited counterspace.

To ensure safe use for the operator, the blade will not spin until the feed attachment is secured and the pusher is engaged. This unit is easy to control with a simple on / off switch located conveniently on the side. Additionally, the pulse button makes processing food even faster and easier since you can pulse until your desired consistency is achieved. The unit's components are easy to clean and can be quickly removed for simple and convenient storage when not in use. This unit requires a 120V, 1 phase electrical connection for operation.
